

Network Adequacy & Leakage Study

A Provider Network Intelligence Engagement

ADEQUACY 71/100 • CAA D+

PREPARED BY KINCAID HEALTH STRATEGIC ADVISORY — A PROVIDER NETWORK INTELLIGENCE ENGAGEMENT PANEL

This study is generated by the Kincaid Health Network IQ engine from the demonstration network profile. All figures are MODELED until claims extracts and provider rosters are ingested. It is an institutional decision-support deliverable, not a regulatory filing. For licensed broker use only.

01 · NETWORK SCORECARD & EXECUTIVE READ

MODELED

IN-NETWORK RATE

\$478,400

ANNUAL LEAKAGE

D+

CAA GRADE

The network scores **71/100** on adequacy with an in-network capture rate of **88.6%**. Out-of-network leakage of **\$478,400** (11.4% of \$4,200,000 total spend) affects 318 members. CAA transparency compliance grades **D+** (58/100) with 4 open gaps, the most severe being the MHPAEA parity position. The modeled annual savings opportunity across leakage, steerage and contracting actions is **\$153,200**.

02 · ADEQUACY BY SPECIALTY — EIGHT LINES

MODELED

Specialty	In-Network	Needed	Ratio	Status	Drive (min)	Gap Counties
Primary Care	48	40	1.20x	ADEQUATE	12	0
Cardiology	9	12	0.75x	DEFICIENT	34	2
Orthopedics	14	12	1.17x	ADEQUATE	22	0
Mental Health	11	28	0.39x	CRITICALLY DEFICIENT	58	4
Oncology	5	6	0.83x	MARGINAL	41	1
Obstetrics	12	10	1.20x	ADEQUATE	18	0
Dermatology	7	8	0.88x	MARGINAL	29	1
Endocrinology	4	8	0.50x	DEFICIENT	47	3

The binding deficiency is **Mental Health** at 0.39x of required capacity. Add 17+ behavioral health providers. MHPAEA parity violation risk. Consider telehealth network supplement.

08 · EVIDENCE & CONFIDENCE TIER

DOCTRINE

Every figure in this study is **MODELED**: the network profile, leakage ledger and compliance matrix are demonstration fixtures pending ingestion of the plan's 835/837 claims extracts, provider roster and CAA attestation records. Ingesting those artifacts would move the leakage and adequacy findings to CERTIFIED. This document carries a SHA-256 evidence manifest in its download headers (Hard Rule 03).
